

Physics 417 E&M

Homework Set #6

Due Wednesday, October 24, 2007

Chapter 4 – 16, 19, 21, 22, 26, 32

Guidelines Please show all of your work and explain briefly the steps you take for your homework solutions, so that I can see how you went about solving the problems. For problems that require you to establish a coordinate system (origin and axes) please also include a sketch that shows your choice of origin and direction. Please try to turn in reasonably neat papers.
