

**Physics 417 E&M**

**Homework Set #9**

**Due Monday, November 26, 2007**

**Chapter 7** – 2, 12, 19, 32, 57

**Guidelines** Please show all of your work and explain briefly the steps you take for your homework solutions, so that I can see how you went about solving the problems. For problems that require you to establish a coordinate system (origin and axes) please also include a sketch that shows your choice of origin and direction. Please try to turn in reasonably neat papers.
