

Physics 206 Modern Physics

Homework Set #9

Due Monday, December 3, 2007

Chapter 7 – 8, 13, 22, 25, 36, 68

Guidelines Please show all of your work and explain briefly the steps you take for your homework solutions, so that I can see how you went about solving the problems. For problems that require you to establish a coordinate system (origin and axes) please also include a sketch that shows your choice of origin and direction. Please try to turn in reasonably neat papers.
